/Andrew Caldwell/ Supervisory Patent Examiner, Art Unit 2442							

Continuation of 11, does NOT place the application in condition for allowance because: Re 112 2nd rejection: The proposed amendment changing "ratio between" to "precentage of each of" appears to overcome the 112 2nd rejection. However, the examiner recommends changing the language in claim 1 (and throughout accordingly) from "data transmission percentage of each..." to something similar to "transmission bandwidth percentage for each..."

Re rejection of proposed claim 1: Would require further search and reconsideration.

Re rejection of proposed claim 11: Day '601 teaches program identifiers are used in the requests to adjust the transmission modes (Day '601: Figure 3; col 4, lines 47-67).
